

How much does your energy supplier owe your business?

Have you ever checked?

And how are you going to get it back?

Nearly every business thinks it gets overcharged for energy. But trying to get any kind of redress from energy suppliers is time consuming and, often, futile. We know what questions to ask and where to look.

Which is where Cost Centre services (CCS) comes in.

CCS will investigate your energy billing:

- ✓ We'll check you aren't paying too much now.
- ✓ We'll check you haven't paid too much in the past.
- ✓ If you want, we'll monitor your ongoing bills to check you never pay too much in the future.
- ✓ If we don't look, we can't find.

We'll even investigate any other problems you're having with your energy supplier. Whatever the issue, CCS can help.

And it needn't cost you anything.

CCS earns its fees from refunds obtained for clients – no refund, no fee.

You can't lose.

But you CAN win: let us investigate. We've helped businesses recover hundreds to tens of thousands of pounds.

"As FD at my previous company I engaged CCS who successfully pursued the repayment of over £50,000 related to overbilling."

Ashley Crump. MD. Manufacturing Company.

"CCS have been particularly active and helpful in resolving our energy issues with suppliers, recovering over £14,000 for double charges we were never aware of"

Richard Polo. Director. Joe Allen Resturant. Orso Resturant. Exeter Street Bakery.

It couldn't be easier.

Just give CCS a copy of your recent energy bill. Our own sophisticated software program processes and analyses account data, highlighting any anomalies and errors. Our expert investigators will check your account and conduct an ACCOUNT VALIDATION REPORT. If we can, we'll claw back any refunds you are due.

Tender your energy.

CCS is an entirely INDEPENDENT organisation working for our clients. We do NOT work for energy suppliers. We are procurement specialists and can source some of the best tariffs from 23 energy suppliers.

Call us today. It won't cost you a penny.
And it could save you thousands.
