

## Do you want to reduce your energy costs?

**Buying an energy tariff is just one solution.**

## We have lots of other solutions and most are free!

Reducing costs and making greater efficiencies in your business will be much simpler and more effective if you let Cost Centre Services (CCS) work on your behalf. Our reputable services can help make a big difference to your energy **and utility costs** like it has done for many others from SMEs to large Corporates.

### The Cost Reduction Experts.

Because we complete in-depth analysis on your current energy account we gain a greater understanding of ALL aspects and look at the best ways to make efficiencies and reduce your costs without compromising your business. This analysis can also identify any past billing errors that can be potentially refunded, and will even identify if you are liable to re-billing costs going forward. You get peace of mind because we have looked.

Energy Procurement Services • Billing & Account Validation • Completely Independent  
Monitor & Report • Expense Solutions • Energy & Water Conservation

## Here's how we help you.

### Step 1 Comprehensive Analysis

We review all necessary invoices, statements, contracts and agreements. Then we check more details with suppliers. We validate everything.

### Step 2 Account Validation Report

Once we are satisfied, we issue you a report detailing just about everything you could possibly want to know about your energy supplies. This includes your CO<sub>2</sub>, day and night consumptions and even an accurate budget to use.

### Step 3 Cost Reduction Solutions

We will tell you our ideas about enabling cost reductions. You may be surprised at some of them. You will certainly be impressed by our knowledge. CCS cannot guarantee to find cost reductions in every account we look at.

"With the help of CCS we ascertained that 37% of our electricity consumption was used when the factory was shut. Having this information ensures we can focus on where we can improve and make efficiencies.

Trevor Scott. Head of Production and Logistics. Molton Brown.

"We engaged Cost Centre Services to see if they could obtain a better quote for our electricity supply. We had been given a quote by our current supplier E-ON, but somewhat ironically, Cost Centre Services obtained a significantly better quote from the same supplier saving an annual difference of 30% for a 3 year contract."

Mark Lewis. Administration Manager. Secker & Sons (Norwich) Ltd.

### Step 4 Competitive Tender

CCS is an entirely INDEPENDENT organisation. We do NOT work for energy suppliers. We are procurement specialists sourcing some of the best tariffs from 23 energy suppliers. We give you an unbiased TENDER REPORT.

### Step 5 Aftercare

Being passionate about client service, we don't just walk away after the tender process. We continue to manage and watch in the background. For a small monthly fee we can provide an ongoing audit to provide peace of mind.

**Call us today. It won't cost you a penny.  
And it could save you thousands.**
